

The new mean is sort of ok, although it is on low side. Please work well and improve in the next exam. As I promised, I will give you bonus points for very good improvement. I strongly urge all of you to get serious. Please come and see me.

Mean

73.77

s.e=

10.90197 Tentative Grading scale is :

| | | |
|-----------------|---------|--|
| less than 50 | 50 F | below 50 |
| 50 | 59.99 D | between 50 and mean - one standard deviation |
| 60.00 | 66.89 C | mean -one standard deviation to mean |
| 66.90 | 80.22 B | mean to mean + one standard deviation |
| 80.23 and above | A | above mean + one standard deviation |

the course.

NOTE: Although this scaling for grades is not final, this gives you some ideas about where you stand. If your expected grade is F or even D, to successfully complete this course, please make sure you arrange some time with me and work out a study plan for the other exams and your homework. There is nothing embarrassing about it, because I know you tried and something might have gone wrong. I can help you, but you have to motivate yourself and you must be committed to do it.
