

Mean = %  
79.76

s.e=

12.00557 Tentative Grading scale is :

|                 |       |   |  |
|-----------------|-------|---|--|
| less than       | 50    | F | below 50                                     |
| 50              | 67.75 | D | between 50 and mean - one standard deviation |
| 67.75           | 79.76 | C | mean -one standard deviation to mean         |
| 79.76           | 88.99 | B | mean to mean + one standard deviation        |
| 88.99 and above | A     |   | above mean + one standard deviation          |

the course.

NOTE: Although this scaling for grades are not final, this gives you some ideas about where you stand. If your expected grade is F or even D, to successfully complete this course, please make sure you arrange some time with me and work out a study plan for the other exams and your homework. There is nothing embarrassing about it, because I know you tried and something might have gone wrong. I can help you, but you have to motivate yourself and you must be committed to do it.
