

Econ 333, Wednesday night, Mid term 2, Spring 2003, Professor Lakshmi K. Raut

Mean =

%

76.64

s.e=

13.9723 Tentative Grading scale is :

less than	50 F	below 50
50	62.67 D	between 50 and mean - one standard deviation
62.67	76.64 C	mean -one standard deviation to mean
76.64	90.62 B	mean to mean + one standard deviation
90.62 and above	A	above mean + one standard deviation

the course.

NOTE: Although this scaling for grades are not final, this gives you some ideas about where you stand. If your expected grade is F or even D, to successfully complete this course, please make sure you arrange some time with me and work out a study plan for the other exams and your homework. There is nothing embarrassing about it, because I know you tried and something might have gone wrong. I can help you, but you have to motivate yourself and you must be committed to do it.
