

Midterm2: Econ 335-06, Wednesday night, Professor Lakshmi K. Raut, Spring 2003

Mean =

%

74.32

s.e=

10.99003 Tentative Grading scale is :

less than	50 F	below 50
50	63.33 D	between 50 and mean - one standard deviation
63.33	74.32 C	mean -one standard deviation to mean
74.32	85.31 B	mean to mean + one standard deviation
85.31 and above	A	above mean + one standard deviation

the course.

NOTE: Although this scaling for grades are not final, this gives you some ideas about where you stand. If your expected grade is F or even D, to successfully complete this course, please make sure you arrange some time with me and work out a study plan for the other exams and your homework. There is nothing embarrassing about it, because I know you tried and something might have gone wrong. I can help you, but you have to motivate yourself and you must be committed to do it.
