

Mean

76.51

s.e=

8.559039 Tentative Grading scale is :

less than	50	F	below 50
50	67.96	D	between 50 and mean - one standard deviation
67.96	76.51	C	mean -one standard deviation to mean
76.51	85.07	B	mean to mean + one standard deviation
85.07 and above	A		above mean + one standard deviation

the course.

NOTE: Although this scaling for grades are not final, this gives you some ideas about where you stand. If upir expected grade is F or even D, to successfully complete this course, please make sure you arrange some time with me and work out a study plan for the other exams and your homework. There is nothing embarassing about it, because I know you tried and something might have gone wrong. I can help you, but you have to motivate yourself and you must be committed to do it.
